Sponsor a Differently-abled Child Project

Dear Sir/ Madam,

The starting of **Vikas School**, initiated by the **YMCA Public Charitable Trust**, Tiruvalla, Kerala for the differently-

We nurture their talents

abled (Mentally and physically challenged) children was a social response to a challenging situation in our community. The school which was started with 6 children and a solitary teacher 1989, has completed 34 yrs of service to the society and presently caters to 136 children and 16 Staff members coming from diverse religious and cultural background, most of them hailing from families below poverty line. The Vikas school with limited facilities till 2014, was shifted to a larger campus in a nearby village, Kaviyoor. The general public and well-wishers of the school joined hands to raise an amount of Rs. 2.5 Crore to purchase and develop a campus of 1.43 acres of land and also constructed a building of about 24000 sq. ft. comprising mainly of office and classrooms for Vikas School.

Learning with models

The Govt. of Kerala gives yearly consolidated grants to Special schools on certain conditions and to become eligible to come under this scheme. Class rooms have been completed, but we have to set apart the built up area into different sections like Capacity Building Centre, Assembly Hall ,Physiotherapy Room, Hobby Workshop, Audio Visual and Speech Therapy room, Play grounds etc.. with state of art facilities and equipments. Second floor of the School building has to be completed with Lift facility for accommodating some of these areas for which an amount of about **50 lakhs** is needed. Also qualified teachers and staff should be appointed as per govt. norms. Apart from this transportation facility is provided for all the students from their homes and back and lunch is also provided at the school incurring heavy expenses. But we are unable to charge any fees for this, as most of the students are hailing from very poor families. As always, we bank upon the support of like-minded people like you to partake in this noble venture in raising the required funds to sustain and run the school effectively. Kindly lend us a helping hand to complete the infrastructural developments of the Vikas School and also be a part of - **Sponsor a Child Project** - at this moment of

We make each of them a social being
